MILES GRIFFITH

Full-Stack Software Developer
Issaquah, WA | (425) 281-9256 | milesbgriffith@gmail.com
linkedin.com/in/mbgriffi | github.com/CrypticWaffles | milesgriffith.dev

EDUCATION

Bellevue College | Bellevue, WA
B.A.S., Software Development | Expected Dec 2026 | Cumulative GPA 3.72
A.A.S., Software Development, With Honors | Dec 2024 | GPA 3.68 | Phi Theta Kappa Honor Society
Relevant coursework: Data Structures & Algorithms, Software Testing, Application Architecture, Advanced Web Development

TECHNICAL SKILLS

Languages: JavaScript, C#, SQL, Java, HTML5, CSS3
Frameworks: React, Node.js, Express, ASP.NET Core, .NET, SignalR, Sails.js, Tailwind CSS, Bootstrap
Databases: PostgreSQL, SQL Server, MongoDB, SQLite
Tools: Git, GitHub, GitHub Actions, Vitest, Vercel, Railway, Render, Visual Studio, Android Studio, AI-assisted development (Claude Code, Gemini)
Practices: REST APIs, OAuth 2.0, JWT, unit testing, CI/CD, Agile/Scrum, pull requests and code review
Familiar (coursework): TypeScript, Python, Linux, Docker, Google Cloud
Spoken languages: English, Japanese (conversational)

PROJECTS

Pipeline | React, Node.js, Express, PostgreSQL, Tailwind CSS
github.com/CrypticWaffles/Pipeline | pipeline-nu-ecru.vercel.app

- Built a full-stack job-application tracker with a five-stage drag-and-drop Kanban board and responsive layout
- Implemented Google OAuth 2.0 sign-in with Passport.js and JWT, with every query scoped to the signed-in user
- Wrote a REST API for job CRUD and CSV import/export, plus SQL aggregations for response rate, offer rate, and days per stage
- Deployed to Vercel and Railway with a no-login demo mode; used it to track about 60 of my own applications
- Wrote 16 API tests with Vitest and Supertest, run with lint on every push through GitHub Actions

Hospital Management System (team of 2) | C#, ASP.NET Core 8, SignalR, Windows Forms, SQL Server, MongoDB
github.com/CrypticWaffles/HospitalManagementSystem

- Built login and registration with BCrypt-hashed passwords and a role-based hub for five user roles in a Windows Forms client backed by MongoDB
- Implemented real-time chat and a live dashboard with an ASP.NET Core SignalR server pushing simulated vitals every 2 seconds
- Built analytics reports over SQL Server patient and inventory data with export to CSV, JSON, and XML

E-Voter (team of 4) | Node.js, Sails.js, EJS, Bootstrap
github.com/CrypticWaffles/E-Voter | e-voter-5tp3.onrender.com

- Conceived the product and served as lead developer and product owner in Scrum sprints, writing about 75% of 92 commits across 70+ pull requests
- Built ZIP-to-state lookup with the Zippopotam.us REST API and a results page aggregating yes/no votes on legislative videos by state

Queued | Java, Android, SQLite, TVmaze REST API
github.com/CrypticWaffles/Queued

- Built an Android TV-show tracker with debounced TVmaze API search, sort and filter, and local SQLite persistence

EXPERIENCE

Warehouse Receiver | Snoqualmie Casino & Hotel, Snoqualmie, WA | Sept 2025 – Present

- Receive about 12 truck deliveries per weekday on a 5–7 person team across two warehouses, verifying each against purchase orders before stocking or routing direct to venues
- Fulfill about 50 internal orders per day for 12 food and beverage venues and internal departments
- Audit stock by reconciling physical counts with inventory records; hold a Snoqualmie Gaming Commission license

Drive Up & Go Lead (Department Supervisor) | Safeway, Issaquah, WA | Sept 2023 – Sept 2024

- Promoted from Shopper after 7 months to supervise a team of 6 fulfilling 40–120 online orders per day across 2–3 shifts
- Reviewed order accuracy, pick rate, and on-time completion with the store manager weekly, and audited shopper orders for procedure compliance
- Trained new hires and wrote the department's onboarding materials

Drive Up & Go Shopper | Safeway, Issaquah, WA | Feb 2023 – Sept 2023
